The proposed expansion of the Y.M.C.A. does comply with the goals contained in the Allen County Overall Economic Development Program. The proposed expansion is for two separate facilities; one downtown, and the south branch on Werling Drive. These projects both provide public recreation facilities convenient to City residents. The Central Branch Y.M.C.A. compliments adjacent redevelopment projects and will attract additional people downtown. Improvement to the Central Branch Y.M.C.A. should be coordinated with the Downtown Revitalization Plan, so that the final projects are compatible.

While there will be no property tax revenue due to the non-profit status of the Y.M.C.A., the project will create ten (10) new jobs. Thus the cost per job will be \$120,000.

Both Y.M.C.A. sites are well within the urban area defined in the comprehensive plan. The improvements will serve desired residential development in the south part of Fort Wayne, as well as the aforementioned positive impact on downtown.

The zoning in downtown Fort Wayne is B3A General Business and the Y.M.C.A. is within that category. The Werling Drive location is zoned RA Suburban Residential. A contingent use variance was granted in 1962 for the development of this facility.
